EDITOR'S NOTE

Happy New Year from everyone at Catchfrench Design. We hope 2011 will be a good year for all of us. We currently have several projects on site as well many other schemes at various stages. In spite of the weather this winter we are pleased that our jobs have continued to progress whilst we look forward to spring.

NEW HOUSE, CONSTANTINE

This is a new 4 bedroom house on the site formerly occupied by a bungalow. The development is now progressing well and due to reach practical completion in the next couple of weeks. The contractor is A.D. Williams.

NEW FACTORY, CHARD

The scheme for this £2million factory has currently been submitted for building regulations approval and is due to be on site shortly. We are working in conjunction with W.H. Bond on this project.

EXTENSION, ROCK

One of our smaller projects, this is a contemporary extension to a cottage in Rock which is a rental property / second home. Work is progressing well and we expect the steelwork to be on site shortly. The contractors are Gordon Derry & Sons.

OTHER NEWS

Catchfrench Design is pleased to announce the introduction of our new Small Project Package which is aimed in particular at our domestic clients. Designed to offer a simpler way to engage our services for projects up to 30sqm and 50sqm, this is a fixed price solution.

We have also been updating our website recently so check it out at www.catchfrenchdesign.co.uk, follow us on twitter at www.twitter.com/catchfrench and find us on facebook at www.facebook.com/catchfrenchdesign.
